POCKETALK, the AI-driven interpreting
device of your dreams

POCKETALK supports not only English but also Chinese, Korean, Thai, and Vietnamese. The device can be used to translate 61 languages into speech and text as well as an additional 21 languages into text only for a grand total of 82 supported languages (as of January 2021).

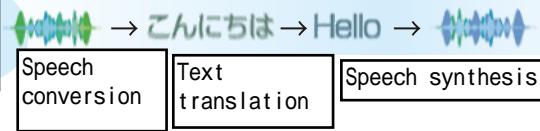

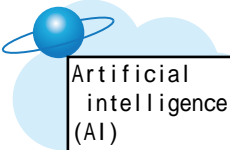

Talk to people from around the world
SOURCENEXT's POCKETALK is an AI-driven interpreting device that enables people who cannot speak each other's languages to interact just by pushing a button while talking.

Support for 61 languages

Instant translation into text or speech by using the latest and best engines in the cloud.

This AI can translate long sentences, too.

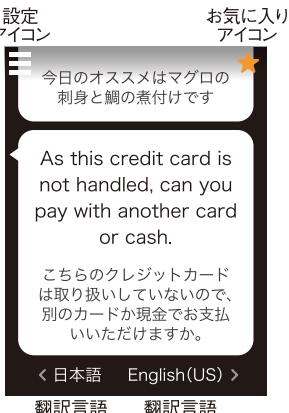

Even long sentences, such as those found in the news, can be translated.

The number of people traveling abroad at the year-end and New Year holidays is expected to be the highest ever with 734,000 people. The overseas travelers of year-end and New Year holidays are expected to leave the country on December 29 and the peak of entry will be on January 3 at Narita Airport.

Easy to use
Extremely easy to use. Simply hold down the button on the side where the language you want to translate is displayed, start talking after the beep, and then release the button when you are done.

Automatically save results
When you talk, the text is displayed in real time, so you can tell whether what you said was correctly recognized. After the tone sounds, the words are translated.

Easily select languages
To switch languages, simply touch the name of the language and then select a different one from the displayed list. You can also specify a language by saying its name.

Easy to use even in crowded places
Thanks to the device's noise-canceling dual microphones and powerful speaker, it is easy to converse even in crowded places.

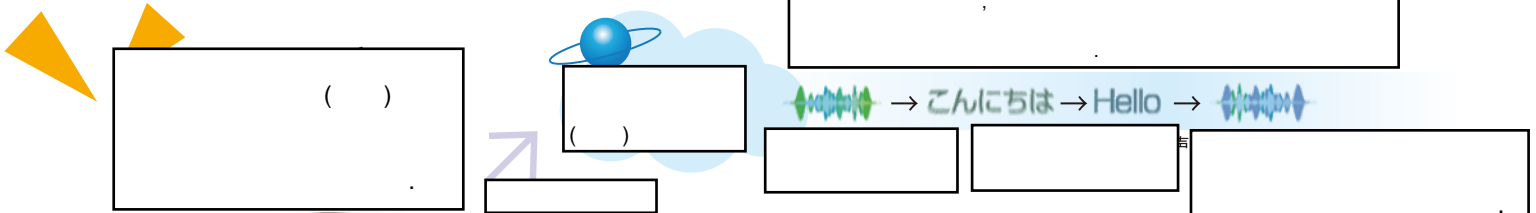

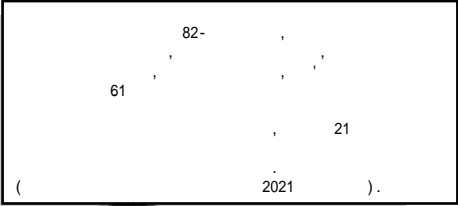

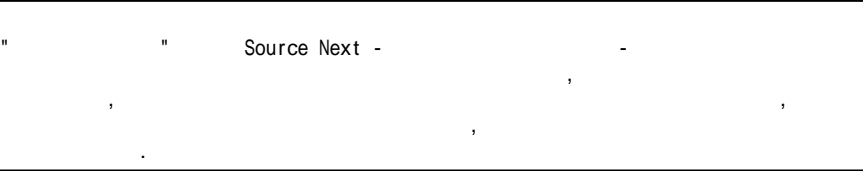

Register frequently used expressions
Recorded translations can be played back with a single tap. If you hold down the button and then select Add to favorites, you will be able to instantly recall the translation later, so you do not have to repeat frequently used expressions every time.

Works in 138 countries and regions
With its built-in global SIM card, POCKETALK can be used in 138 countries and regions around the world without the need to set anything up, even where Wi-Fi is not available (current information as of January 2021).
